

# MAR

# Seminar Schedule

Autumn 2003

**Tuesday 7 October 14.00**

## **Defining reference conditions for Danish lakes using paleolimnology**

Emily Bradshaw  
Geological Survey of Denmark  
and Greenland (GEUS),  
Environmental History Research Group  
Host: Daniel Conley

**Tuesday 21 October 14.00**

## **Biogeochemistry of shallow-water sediments - role of benthic microalgae**

Kristina Sundbäck  
Göteborg University,  
Department of Marine Ecology,  
Marine Botany  
Host: Ingela Dahllöf

**Thursday 6 November 10.00**

## **Dynamic modeling of early diagenesis and nutrient cycling in near shore sediment**

(Aarhus Bay, Denmark)  
Peter Berg  
University of Virginia,  
Department of Environmental Sciences  
and  
Henrik Fossing  
National Environmental Research Institute,  
Department of Marine Ecology  
Host: Henrik Fossing

**Tuesday 18 November 14.00**

## **Part a) The Kattegat control of inflow of seawater and Baltic surface salinity Part b) Supply and consumption of oxygen in the deepwater of the Baltic**

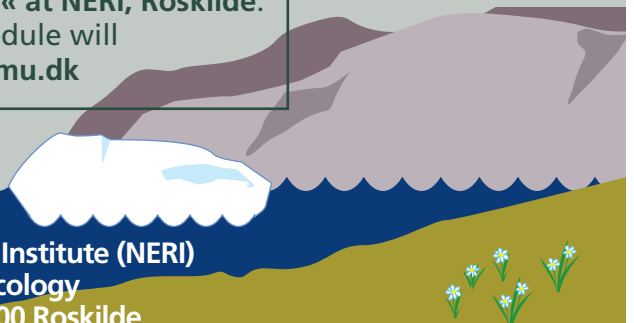

Anders Stigebrandt  
Göteborg University, Earth Sciences Centre,  
Department of Oceanography  
Host: Karin Gustafsson

Further information can be obtained by contacting  
Karin Gustafsson at tel. 46301862  
or the Host of the scheduled seminar.

All seminars take place in the »Pavillon« at NERI, Roskilde.  
Changes to the seminar schedule will  
be announced at [www.dmu.dk](http://www.dmu.dk)

National Environmental Research Institute (NERI)  
Department of Marine Ecology  
Frederiksborgvej 399 • DK-4000 Roskilde

Tel: +45 4630 1200
